Brijesh Chhatrala
Flutter Developer

About Me

Enthusiastic and dedicated Flutter developer with hands-on experience in building mobile apps using Dart and Flutter. Skilled in integrating REST APIs, managing local and cloud databases, and implementing in-app advertisements. Passionate about creating responsive, user-friendly applications and eager to grow in a collaborative development environment.

APP DEVELOPMENT WITH FLUTTER [TOPS ECHNOLOGY]

Experience

Up to 3 months
FLUTTER DEVELOPER
Beetonz infotech

- Developed mobile applications using Flutter with clean, maintainable, and scalable code.
- Built and deployed AI-powered apps, including an AI Video Dubber, AI Teleprompter, AI Travel Itinerary Generator, and a Speedometer app.
- Integrated RESTful APIs for real-time data access and smooth app functionality.
- Managed both local (Sqflite) and cloud-based (Firebase) databases effectively.
- Implemented in-app advertisements such as banner, interstitial, and rewarded ads for monetization.
- Continuously monitored and optimized app performance to ensure a seamless and responsive user experience.
